

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at http://books.google.com/

INTEREST TABLES

39877

USED BY THE

Mutual Life Insurance Company

OF NEW YORK,

FOR THE CALCULATION OF

Interest and Prices of Stocks and Bonds for Investment.

By WILLIAM H. C. BARTLETT, LLD.

Actuary of the Company.

THIRD EDITION, EDITED AND ENLARGED

—: BY:—

EMORY McCLINTOCK, LL.D., F. I. A., Actuary.

NEW YORK:

PUBLISHED BY THE MUTUAL LIFE INSURANCE COMPANY OF NEW YORK.
1889.

The Mutual Life Insurance Company of New York.

OFFICE OF THE ACTUARY,

September 21, 1878.

F. S. WINSTON, Esq.,

President of The Mutual Life Insurance Company of New York.

Dear Sir—It is frequently desirable, in the transactions of this Company, to know what rate of Interest will be realised by Stocks and Bonds which bear certain prices in the market, and, conversely, the prices which may be paid to obtain certain rates of Interest. The ordinary Numerical Tables do not always furnish this information, and some are not accurate.

To meet this want, the Tables, herewith presented, have been carefully prepared for the use of The Mutual Life Insurance Company of New York, in regulating and determining its investments.

They are so useful in this and other respects as to justify the hope that they may be acceptable to the financial community, and are, accordingly, published by your direction.

The ordinary Compound Interest Tables are also given, as far as Fifty Years.

Very respectfully, your obedient servant,

WM. H. G. BARTLETT.

Actuary.

The Mutual Life Insurance Company of New York.

New York, July 17, 1889.

EMORY McCLINTOCK, Esq.,

Actuary.

Dear Sir—Interest Tables were prepared for the use of this Company by your predecessor, Professor W. H. C. Barilett, LL. D., and copies of them have from time to time been supplied by the Company to other financial institutions and to individuals. They have been found so satisfactory by all who have had occasion to use them that I have determined to issue a new edition of them. The prevailing rates of interest and the classes and terms of securities having changed to some extent since these tables were prepared, I think it desirable that considerable additions be made to the volume as formerly printed, and shall be obliged if you will make such additions to them as may seem appropriate, after consultation with the Treasurer.

Yours truly,

RICHARD A. MCCURDY,

President.

ACTUARY'S DEPARTMENT.

The Mutual Life Insurance Company of New York.

New York, October 22, 1889.

RICHARD A. McCurdy, Esq.,

President of The Mutual Life Insurance Company of New York.

Dear Sir—I hand you herewith the Interest Tables prepared by my distinguished predecessor and now revised and enlarged as directed in your letter of July 17.

The suggestions made to me by the Treasurer, Mr. Cromwell, have been followed closely; the range of prices in all of the Tables reprinted has been increased, and a new table has been added for Bonds bearing interest at two and one=half per cent.

I remain, dear sir,

Yours most respectfully,

EMORY McCLINTOCK,

Actuary.

The

Mutual Life Insurance Company

of New York

EXAMPLE: Required the interest, at 81x per cent., on \$1,000, from April 10th to October 10th.

By the Calendar the number of days is 188.

The interest on \$1,000 for 188 days, may be deduced from the column headed "6 per cent.," as follows:

Interest on \$1,000 for 180 days -- \$29.589

188 " - \$80.082

The interest on \$1,000 for any number of days, at the given rates, may be found in a similar way.

Mutual Life Insurance Company

of New York

COMPOUND INTEREST TABLES.

EXPLANATION OF COMPOUND INTEREST TABLES.

THE results in the following tables are obtained by compounding interest for rates given at the top, and for times in the first and last vertical columns of each page.

The first and last columns show the number of years.

The second shows the sum which must be paid down to discharge a debt of one dollar, due from one to fifty years hence; discounting at the given rate.

The third shows how much an obligation to pay one dollar annually, for a period varying from one to fifty years, will cost; the first payment being due at the end of the first year, and discounting at the given rate.

The fourth shows the sum which one dollar, improved at the given rate for any number of years, up to fifty, will amount to at the end of the given time.

The fifth shows how much an annual deposit of one dollar for any number of years up to fifty will amount to, at the given rate, when the last deposit has been made.

The sixth shows the annuity certain for any number of years up to fifty, which one dollar will purchase at the given rate, the first payment to be made at the end of the first year.

	PRESENT VALUE OF		JOMA	INT OF		
YEARS.	due at the end of any number of years— 1 to 50 years.	\$1 per annum due at the end of every year— 1 to 50 years.	\$1 at the end of any year— 1 to 50 years.	\$1 per annum at the end of every year— 1 to 50 years.	Annual Payment which will discharge a debt of \$1 and its interest in any number of years— 1 to \$0 years.	YEARS.
